

Testimony for Theresa Adams, from Clinical Volunteer Gabi Jones.

*Theresa is someone that deserves the world and more.*

*Throughout my time volunteering Theresa became my left leg, the person I could run to when I didn't know what I was doing, the person who told me it was ok when things got a bit tough. She forever reassured me. The confidence Theresa given me to be able to go be a HCA is something I'll never forget. She always told me I could be anything I wanted and achieve everything I wanted to do. Volunteering with Theresa was one of my biggest pleasures in life. She helped me grow as a person. Her biggest advice was always to smile and I'll forever take that with me- "Keep smiling when things get tough my darling". In a world like today, we need more people like Theresa. She's amazing and a woman I'll never ever forget.*
